People, Production & The Planet

PRODUCT RESILIENCE MEETS PRODUCT INNOVATION

As our working environments adapt and evolve, we continue to be at the forefront of product development and innovation with a collection of uniforms that meet the ever-changing demands of the nation's workforce.

Our ability to be reactive has seen us develop and bring to market a collection of face masks and coverings that are now a familiar part of our everyday working lives. These coverings are designed to work effortlessly with our clothing collection, so you can colour coordinate with confidence.

With the aim of providing a specialist hygienic collection of workwear to our customers, we are pleased to launch a number of products that are treated with an antimicrobial textile technology called HeiQ Viroblock that makes the fabric resistant to bacteria and microbes.

In our efforts to be live, work and manufacture in a more sustainable way, we have launched a line of hospitalitywear that reflects this ethos.

This range will be welcomed by businesses who want to promote a message of sustainability through their working practices.

Key styles that have been part of our collection for many years have recently demonstrated how versatile they can be. It is worth taking a fresh look at our collection of aprons, tabards and tunics and consider how they play a vital role in the cleaning, hygiene and housekeeping sectors. Antimicrobial polo shirts that offer high wash performance and superior breathability prove to be a great all-round uniform solution for those working in labour intensive roles.

Our healthcare tunics continue to play a big part in identifying key workers in the community and we've extended our range of waterproof and bleach resistant coverings that will prove popular with those who need adequate protection against liquid spillages.

Our corporate collection of shirts reminds us that there is never an excuse for poor dressing in the workplace and we would like to finish on a 'green' note about our best-selling Poplin Shirts. We have completed the removal all unnecessary packaging, including plastic clips, collar bands, cardboard inserts and swing tickets - and based on the amount we manufacture in one year, this equates to an incredible twenty seven tonnes of packaging saved on this product alone.

ECO-FRIENDLY OPTIONS

Staying true to our objective to minimise our environmental impact, we continue to work with our manufacturing partners to ensure that there is complete clarity in our supply chain, so you can be sure that we are working to the highest ethical, social and environmental standards we can.

Our latest commitment to our objective sees us launch range of sustainable products that have been farmed in the most resourceful manner and made from the most natural materials.

Let's take a look at what makes these products sustainable.

**CERTIFIED
ORGANIC
COTTON**

Organic cotton is grown without the use of toxic pesticides and synthetic fertilizers, therefore have a low impact on the environment. Certification is awarded to producers who use recognised agricultural methods and who farm the most natural resources.

**RECYCLED
POLYESTER**

The Polyester element in our PR120 Apron is made entirely from plastic bottles – making it 100% recycled! Using existing plastics means there less extraction of raw materials, resulting in less carbon emissions and of course there the benefit of keeping it away from our landfills. Recycled polyester gives in the same technical fabric performance, but with a lesser carbon footprint.

**CERTIFIED
FAIRTRADE
COTTON**

The Fairtrade Foundation awards farmers and growers with a Fairtrade status that enables that they get a fair price and better trade conditions for the cotton they produce and they sell. This in-turn allows them to improve their living conditions and makes for a more socially conscientious supply chain.

THE COTTON IN OUR SUSTAINABLE APRONS AND SHIRTS IS BOTH ORGANIC AND FAIRTRADE CERTIFIED.
